

Homes Built With Pride

When Quality Matters

Founded in 1993 by Bill and Kathy Brozey, Forrest Builders offers custom home building at a competitive price and is dedicated to unmatched customer service and satisfaction. Mr. Brozey is a graduate of the University of Maryland. With more than 20 years in the building business and related trades, Bill has assembled a staff of devoted employees and subcontractors who believe in crafting homes with pride.

The dedication of his team to the production of a home that bears the benchmark seal of craftsmanship is evident everywhere you look. Painsstaking pride shows in every detail from the exacting energy package to the beautifully integrated wood treatments.

Bill Brozey is the builder who has made Forrest Builders synonymous with superior workmanship and personalized customer service. Bill will help you visualize your wishes and carefully transform your desires into an original concept that evolves into the home of your dreams.

*If you can dream it,
We can build it.*

Forrest Builders maintains a "hands-on" approach throughout the entire building process. Starting with hand drawn floor plans to ensure proper engineering and to incorporate your special requests or needs. Once you have selected your house style it is essential to match it with the ideal building lot. All of these important decisions and many others will be managed by you and Bill Brozey.

We're with you from start to finish and beyond

From breaking ground to walk-thru our dedicated subcontractors and staff will help make your construction and decision process as comfortable as possible. We will work with you to make sure your personal details are created.

Comfort & Confidence

"A person's home should be their most personal asset, something they are most proud of. If the builder isn't proud of his work, how can he expect the owner to be?"

—Bill Brozey

Forrest Builders enjoys building homes with pride. Most of our clients are referrals and we are proud to say that several have been repeat buyers, that says a lot.
